DETAILED ACTION

The amendment and response filed on 13 July 2007 has been entered and overcomes the rejections to the claims.

Allowable Subject Matter

1. Claims 1-5 and 18, 20, and 22 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art of record neither shows nor suggest a barrier array comprised of, in part, an insulative layer including a first portion directly formed on the upper surface of the metal plate, a plurality of second portions, and a third portion directly formed on the lower surface of the metal plate, the second portions disposed in the respective openings and connecting the first portion with the third portion, along with the rest of the limitations of the claim.

Due to their dependency, claims 2-5 are necessarily allowable.

Regarding independent claim 18, the prior art of record neither shows nor suggest a barrier array comprised of, in part, an insulative layer including a first portion directly formed on the upper surface of the metal plate and a plurality of second portions, the second portions extending from the first portion into the respective openings and directly formed on inner edges of the metal plate that bound the respective openings.

Due to their dependency, claims 20 and 22 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
